## Korniloff's Armies Pushing on Toward Lemberg After Bloody Fight

### GREAT RUSSIAN DRIVE KEEPS UP IN GALICIA AND TEUTONIC HEADQUARTERS ARE CAPTURED

Korniloff's Troops Have Occupied Kalusz After Sanguinary Battle and Taken Large Number of Prisoners—The Russians Are Continuing Their Advance.

General Brussiloff's offensive in Galicia is developing into a drive with little or no letup, at least so far as the part in it played by General Korniloff's armies is concerned.

Yesterday's news of the capture of Halicz was followed today by the announcement that General Korniloff's troops had pushed on beyond Lesiuvka, southwest of Stanislaw and reached and occupied Kalusz, a city of 8,000 population seven miles to the west of the Stoka river. The Austro-German headquarters in this district are located in this city.

Kalusz was stubbornly defended, but after a sanguinary battle, the Russians pushed into the town and according to advices from Petrograd, they are continuing their advance, having taken a large number of prisoners.

The German attack on Monday on the Belgian coast ceased with the capture of the small sector east of the Yser.

On the Verdun front the German crown prince made a number of attacks on both banks of the Meuse. All these assaults, delivered in the vicinity of hill No. 304 on the one side of the stream and north of the Hardaumont work on the other were repulsed by the French, as were attacks on the Aisne front south of Juvincourt and in the region of the triangulate plateau.

**Argentine Postpones Action.**  
BUENOS AIRES, Argentine Republic, July 12.—The congress of neutral South American nations to formulate a common policy in respect of problems arising from the war has been postponed indefinitely.

**Russian Official.**  
PETROGRAD, July 12.—The Russians have captured Kalusz, the headquarters of the enemy in Galicia, after a sanguinary battle, according to an official announcement today. The Russian troops are continuing their advance and have taken a large number of prisoners.

Kalusz is a city of about 8,000 population, 23 miles southeast of Strzy. Yesterday the Russians had reached the Polesie-Lesivka-Karmacz line south and west of Stanislaw. The central point of this line is Lesiuvka, four miles west of the River Bystrica. It is about seven miles east of Kalusz, the nearest large town west of Stanislaw and which is situated in a bend of the Stoka river.

crown prince to attend one or more crown councils at which final decisions regarding the extent to which the crown and the government will make concessions to the reichstag will be reached.

AMSTERDAM, July 12.—Emperor William had an interview lasting several hours with Chancellor Von Bethmann-Hollweg yesterday and received his report on the political situation, according to a semi-official dispatch from Berlin.

The crown prince arrived in Berlin on a special train from the front and yesterday noon attended the Crown Council at which the emperor presided.

PARIS, July 12.—A dispatch from Basel to the Havas agency says Emperor William has addressed to Chancellor Von Bethmann-Hollweg a rescript under the terms of which the bill to be submitted to the Prussian diet, as a complement to the imperial message of April 7 must be drawn up on the basis of equal rights.

AMSTERDAM, July 11.—Chancellor von Bethmann-Hollweg declined yesterday to make known to the reichstag the official communication in the session of the crown council on Monday regarding which there is much speculation within and without Germany. The committee then decided to adjourn.

### DRAFT MUST BE ABSOLUTELY FAIR

President Determined and Plan Will Not Be Announced Until Eve of Drawing.

PERSONAL SUPERVISION  
Numbers of Men Drawn Will Be Flashed Everywhere by Telegraph.

WASHINGTON, July 12.—Persistent inquiries from all parts of the country for information about the method to be followed in selecting men for the national draft have caused the department officials to explain today that President Wilson's determination to have absolute fairness govern the process was responsible for the decision to withhold announcement of the exact plan until the very eve of the drawing.

The exemption regulations and all other moves in the making of the new army have received the approval of the president personally and the draft regulations also will come from the White House. All that is known now is that the drawing will be from serial numbers corresponding to numbers on registration cards and that it will take place in Washington, probably at the capitol.

Secretary Baker or some other high official will draw the first number and then the process of selection will be pushed forward until there is flashed by telegraph to every community in the country the numbers of the men drawn. It is understood that the system planned is so simple that the work will be done in a few hours.

So far only twenty-one states have reported to the provost marshal general's office the completion of their organization. In some of them the names and serial numbers of the men liable to draft already have been posted. The first city to report the completion of that part of her work was Kansas City.

Some fear was felt at the war department today that the delays in organization might cause further postponement of the draft. It had been believed that the drawing might take place Saturday of this week. It then became known that it could not be held before next week and indications were today that it might be the latter part of next week before everything was ready. One of the states where there has been the most confusion in organization is New York. The new estimate of population made by the census bureau as a basis for the draft, it is explained, is not to be taken as a genuine indication of the actual population of cities and communities. As the object of the estimates is to fix a fair basis for establishing local quotas, industrial centers with disproportionately large numbers of young men subject to draft have been given figures probably considerably in excess of the number of people actually within their borders.

As soon as the local organizations are complete, appointment of the district exemption boards will be announced. These boards, one or more in each federal judicial district, will pass upon appeals from the local bodies and will have jurisdiction over claims for exemptions on account of employment in industrial and agricultural or other necessary enterprises. Nominations for the boards proposed from forty-five states already have been sent to the president by the provost marshal general's office.

### BISBEE ROUNDS UP THE I. W. W.

All Business Suspended and Citizens' Protective League Starts After Agitators.

1,500 FULLY ARMED MEN  
Loading Men in Freight and Cattle Cars and Deporting Them From State.

PHOENIX, Ariz., July 12.—The entire town of Bisbee has suspended business and the Citizens' Protective league, numbering 1500, fully armed, has rounded up 1000 members of the Industrial Workers of the World, have searched them and are now loading them in freight and cattle cars and will deport them at 11 o'clock.

The work of deporting the Industrial Workers, who are regarded as the disturbing element in Bisbee, is being done thoroughly and in a systematic manner. The Citizens' Protective league, which is doing it, is an organization of citizens, business men, mine operators and miners not affiliated with the Industrial Workers of the World. It is stated practically all the members of the organization have been deputized by the sheriff.

**Rounded Up in Park.**  
Greatly outnumbered, these members of the I. W. W. who had not left town were "rounded up" in the city baseball park. There a guard was maintained and as fast as the men were brought in they were searched for weapons and the little red cards showing their membership in the I. W. W. organization.

Nearly on a siding, cattle and box cars were standing and the men were taken from the ball park to the cars, where other guards saw to it that they remained. This train, which will be composed of more than a dozen cars, was stated, was to be sent out of town at 11 o'clock. Leaders of the Citizens' Protective league refused to give its destination.

**Plans Thoroughly Made.**  
The work was begun at night, a number of citizens from Douglas and other points coming to assist. Everything had been planned thoroughly, as the citizens were determined there should be no mistakes made.

Business men and miners who want to work had determined that the entire industry of the camp should no longer be tied up. Therefore all business was suspended for today for the "clean-up." All shops were closed and no mining operations were attempted. Before night, the Citizens' Protective league announced, there will be nothing remaining in Bisbee with an I. W. W. mark on it.

**Armed Men From Douglas.**  
TUCSON, Ariz., July 12.—A telephone message from Douglas said 200 citizens of Douglas, heavily armed and with three machine guns, left for Bisbee early today in automobiles to assist in the I. W. W. round-up there. Twenty-five freight and cattle cars also have been sent to deport the I. W. W. members. Railroad officials would not indicate the destination of the train after it leaves Bisbee.

**Appeal to Hunt.**  
GLOBE, Ariz., July 12.—Former Governor Hunt, personal representative of President Wilson on the federal strike mediation board, was appealed to today from Bisbee to stop the train upon which miners were being deported.

"Two thousand miners being deported this morning by corporation gunmen from Warren district; stop that train," said the message, which was signed by Attorney W. B. Cleary of Bisbee.

TUCSON, Ariz., July 12.—It was reported here the deported I. W. W. members would be forced to flee into Mexico, as California, Texas and New Mexico have put up the bars against them.

The train, it is understood, will be routed from Bisbee direct to Tucson and will arrive here late this afternoon. Sheriff Meyers and home guard and council of defense officials at once took steps to keep the I. W. W. members moving, and it is expected they will be shipped over the Southern Pacific of Mexico railroad to Nogales, on the border, where there is a detachment of United States troops.

**Headed for New Mexico.**  
TUCSON, Ariz., July 12.—Sheriff Miles was advised later that the special train carrying the deported men from Bisbee was being routed to New Mexico, but every precaution has been taken in the event that any of the I. W. W. agitators should come this way, and the home guard is ready to mobilize on short notice to carry out the orders of the mayor and sheriff.

Telephone messages from Douglas, where the ores from the Bisbee district are smelted, indicate a local censorship has been established both there and at Bisbee.

**MINE SWEEPER SUNK.**  
PARIS, July 12.—The French mine sweeper ship struck a mine in the British channel Tuesday and sank. Eleven lives were lost.

### TROOPS MAY BE SENT TO BISBEE

Generals Investigating I. W. W. Movements—Need No Further Orders.

CAN GUARD ANY PLACE  
Commanders Have Free Authority to Deal With Any Situation.

PHOENIX, Ariz., July 12.—United States troops may be sent to Bisbee, according to a highly reliable report here today.

Governor Campbell said he had received no official notification of the deportations from Bisbee. Pending receipt of reports from state officials there he declined to comment.

The governor had reports from Jerome saying all was quiet there, with a full force of men at work in the mines and the radical element leaving. No further trouble, the reports indicated, was expected.

**Two Men Reported Killed.**  
Attorney General Whitney stated that he had been advised that two men had been killed at Bisbee. One of these was Deputy Sheriff McRae and the other was one of the strikers. Details of the killing were lacking, but it is understood that they killed each other, both opening fire simultaneously.

Assistant Attorney General L. B. Whitney has telegraphed the following to Sheriff H. C. Wheeler at Bisbee: "Kindly wire this office immediately details leading up to deportation now taking place in Bisbee. State by what authority of law you are acting. State fully what violations, if any, took place prior to decision to deport strikers."

Governor Campbell also has telegraphed the sheriff and county attorney along this line. Up to a late hour the governor had received no official information from Bisbee.

**Problem for Government.**  
"The situation is one for the federal government to handle and I informed the federal authorities. I am awaiting a reply to my telegram and in the meantime am unable to do anything further from this end."

The details of the "round-up" are to the effect that the 1500 members of the Citizens' Protective league were sworn in as deputies by the sheriff and made a house to house canvass of the entire district. Every man found who refused to go to work was escorted to the ball park, where they were herded together under guard.

**Attorney Caught in Dragnet.**  
It was said here tonight that Attorney W. B. Cleary, who sent the telegram protesting against the deportation to former Governor Hunt at Globe, was among those caught in the dragnet. Cleary, it is said, was in his automobile on his way to Douglas when his car was stopped by a number of the newly sworn in deputies, who were unacquainted with him, and he was marched to the ball park with the others.

### FOOD BILL NEAR TO COMPLETION

Only Minor Details to Be Settled Before Presentation for Final Vote.

WASHINGTON, July 12.—Revision of food control legislation by the senate agricultural committee is nearing completion with the possibility of being given final approval today.

While the committee continued its work on Senator Gore's substitute for the administration food bill, the Democratic steering committee conferred with a view to making sure that legislation is presented to the senate which will pass on July 21, the time fixed by agreement for a vote.

Only minor details today stood in the way of formal approval of the substitute bill, members of the agricultural committee stated. The committee today had voted to put into the substitute bill the same prohibition provisions already approved by the senate. These would prohibit manufacture or importation of distilled liquors and would also provide for government acquisition of all liquor now in bond at cost plus 10 per cent. The senate today continued perfunctory debate on the administration bill.

NEW YORK, July 12.—Liberty loan bonds sold at a new low record on the stock exchange today. A lot of \$10,000 went at 99 1/2-50ths, or equivalent to a loss of one dollar on a \$1,000 bond.
